DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of MG 132 in the reply filed on June 30, 2005 is acknowledged.

Claims 6-8 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on June 30, 2005.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-5 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

In the interest of compact prosecution, claims 1-5 have been examined insofar as reading upon methods of making a medicament.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1654

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-5 provides for the use of proteosome inhibitors for methods of making the medicament for the treatment of an individual infected with a virus, or an immune suppressed individual, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claims 1, 4 and 5 are indefinite in their use of improper Markush language, i.e., “a group comprising.....”. Use of “comprising” means that the group may contain anything, therefore it is not clear what, if any, limitation is intended.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 USC 102(b) as being anticipated by Weichold et al., (WO 00/33654). Weichold et al., teaches the use of proteosome inhibitor MG132 for the

treatment of viral infections and immune suppressed disease conditions (page 22, lines 12-22; page 52, lines 23-28; page 53, lines 1-14 and Figure 6A on page 4/27).

Conclusion

ALL CLAIMS ARE REJECTED.
